November 21, 2011 Pine Bush NY - UFO witness Butch Hunt Interview Nov-20-2011. *Recorded November 20th 2011*

Phil: "All right. I'm at my friend's Butch. He's a longtime resident of Pine Bush New York. Good afternoon Butch. Butch is a longtime barber. He has a barber shop in town. He's had a lot of his own UFO sightings around here in Pine Bush. That dates way back a few decades. So Butch what you've seen over the years?" **Butch:** "It started in the 1960s. I was reading a fate magazine. In 1968 there was five of us in the car about two miles down the road. It was about 10:30 at night. We watched a circular UFO just come floating over the Mills bridge! It was large as a bank! It had a rim around the edge so so you could see figures looking at us. It hovered over the bridge and we got out of the car. We were looking at them and they were looking at us. Then the car come up behind us. The UFO just tilted back. Then right up and it was going in a couple seconds. Phil took me out to the cemetery I had a sighting." **Phil:** "let me just say that when I took Butch out on July 12 2009. So I went out with Phil there. Also, I had a sighting back in the 60s at that too. It was a cigar shaped one and it was right on rock-cut road. It was about a half a mile away from the July 12 2009 location. It was going upstairs Searsville Road below the tree line. It was a big silver one! Shaped just like a cigar. Next I went with Phil out to the cemetery. There was two vacant houses there. Phil & I watched them out there. I went out there with Phil twice. Phil knew what we were looking at. I knew they weren't planes. A UFO rose up from behind the cemetery. **Phil:** "It came right out of the woods." **Butch:** "Yeah they came right out of the woods. They also come from east and west. Two different directions. Different speeds. You'd have to be as a mannequin to know they planes. But that's how stupid people. They don't even know what they're looking! They called are call UFO skeptics." **Phil:** "So that night I took you out. You said look how bright that is as I was filming. What did you exactly see? **Butch:** "I saw the lights come up from the woods right behind the cemetery. They came straight up and then they hovered. They would go east or west or north or south. Had all kind of lights on them. They had to be something besides planes. Forget about the fly and garbage cans. These where real UFOs." *(insert video clip from July 12 2009).* **Phil continues:** "You have recognized and seen that they use flashing lights on either side of these crafts. it's it's a form of mimicry. A lot of people think they're just planes. You saw it come out of the woods. It was hovering as you said. It stayed there as I was filming. It was just stationary letting me film. Did you see any of that plasma like swirling around it?" **Butch:** "Yeah". **Phil:** "Like a dark cloudy type plasma. The light was so bright. I remember you were remarking on how bright it was. It was pulsing. **Butch:** "Right". These UFOs they go and they stop. Phil you know there's no parking meters up there! You know they're not flames. They don't park up there. These UFOs can stop and go and come and go on any street they want. They're out there by the cemetery it's very active. There there's been a lot of sightings out there for years. **Phil:** "Right. For years. **Butch:** "And strange things go on out there. It's amazing there's only a certain few that really get into it. The rest of the people they don't know what they're looking at anyway. There's people in that one house, the other ones empty. Sooner or later we won't even be able to go out to the occupied house. **Phil:** "Well she gave me permission to be there. She has huge floodlights on that house. I don't like it because it's way too bright to film. You know that area behind the cemetery has been weird for decades. Ellen Crystal had remarked that she had thought that they had a base way behind those woods and they were coming right up from underground. I can vouch for that I took a walk out there back in 2010. That summer I took a walk into the wood where I saw a craft come out. I scoured that whole area. I combed the whole area for about a square mile in the woods. All there is back there is rocks hills ravines marshes. There's no sign of any kind of fenced off facility at all. I don't think it belongs to our government. What other notable sightings you've have you seen that you want to relate and share". **Butch:** That is the only one (*on July 12 2009*) I could see shapes. **Phil:** "But the ones that I took you out to see were triangular. Right? They're not the saucer type. They're definitely triangular right? **Butch:** "Yeah". **Phil:** "Or diamond-shaped? You've had other sightings too right? Butch: "Yes. White Lights. You know there not planes. **Phil:** "Didn't you say your brother had a sighting on his farm? That something killed an animal? **Butch:** "A UFO right over his house. It lit up the whole house. It was in the middle of the night. It lit up the whole house three times! **Phil:** Wow! **Butch:** "And then the UFO disappeared. The third time it was with a very strong infrared light. Strong enough to light up the whole house for about fifty to a hundred yards all around it."

Phil: "Wow." **Butch:** "I asked him did you go outside? He said are you crazy? I'm not going out there. The last time the intervals was like maybe a couple minutes and they walked through the whole house. They have a two-story house. They walked through the whole house and it was the same light on all sides of the house." **Phil: "Wow". Butch:** Lasted for a period of maybe a couple minutes. So my brother walk through the whole house. The UFO lit up the whole yard. **Phil:** "Amazing. Didn't you mention one of his farm animals died as a result?" **Butch: "**My brother had a neighbor and some some of his animals died the next day." **Phil:** "Wow" Because of the light? **Butch:** "They did know from what? The animals just mysteriously died." **Phil:** "Woe" **Butch:** "And we had a UFO a couple years ago. My son at the time was about eighteen at the time. This happened about 10:30 at night. The UFO came in at treetop level. It was huge. It came right over our house. Then it turned around. It was huge. You could see it was turning around and then it just headed up towards town. **Phil:** "Wow". **Butch:** "But his buddy wouldn't even talk about it. He was a UFO skeptic till that night. Then he became an instant believer. When something like that happens you're either go comatose or you become an instant believer!" **Phil: "Wow". Butch:** "The UFO was huge. It was a rectangular. Came floating right over a field right outside our house!" **Phil:** "Amazing" now this is right in Pine Bush?" **Butch:** "Yeah. We live about a mile outside of town. **Phil:** "Yep. So this area has had decades and decades of sightings. Ellen crystal way back in the 80s and 90s saw these things. Pictures were taken at night and everybody would tell her, Oh they're plane lights or car lights. **Butch:** "She had 2500 followers." **Phil:** "that's the big thing with these crafts. Especially the triangular craft. I know there's you've seen some saucer type craft around here too. But most of the crafts are triangular and they are using this form of mimicry. Flashing red and green lights. The UFOs know what they are doing because, if they were to fly around without that kind of FAA required flashing lights, then they would be intercepted by the Air National Guard. The reason they're here so much is because they have an underground base. Well I just that's covers it! It's been good talking to you. I thank you very much for the interview, sharing what you know and what you've seen with with me out in the field. Butch, thanks very much for your time

Note: Many now expect the return of their awaited Teacher, whether they call him the Christ, the Messiah, the fifth Buddha, Krishna, or the Imam Mahdi. Millions now know that the one who fulfills all these expectations, Maitreya, the World Teacher, is already living among us and is gradually emerging into full public recognition.

Preferring to be known simply as the Teacher, Maitreya has not come as a religious leader, or to found a new religion, but as an educator in the broadest sense, a teacher and guide for all people irrespective of background or belief. Together with the Masters of Wisdom, He is here to show us how to solve our most critical global problems.

At this time of great political, economic and social crisis, Maitreya will inspire humanity to see itself as one family and create a civilization based on sharing, economic and social justice, and global cooperation.

flies routine patrols every so often just checking out the perimeters of their their area around here. It's one of the security craft for sure! They patrol their space. They patrol there. They guard their area very well in case hostiles adversaries want to come in and challenge them like the **Rigel** Orions. The **Rigel** Orions and the **Oxicarian** Orions are not friends! At one time I used to think they might be, but I got further information that they're definitely not friends! Their rivals are '**reptilian',** and they're quite disturbing and nasty! They like to start **'skirmishes and challenges'**! They're a very, very ancient reptilian race. Abena told me they're very ancient & they have a very well developed technology."

Wikipedia Note: "Frenemy" is an oxymoron and a portmanteau of "friend" and "enemy" that refers to "a person with whom one is friendly, despite a fundamental dislike or rivalry" or "a

person who combines the characteristics of a friend and an enemy" Note: "Also, according to the divine law of duality and cycles; Good and Evil are two hands folded in prayer to god."
